

Xiaomi Unveils Xiaomi XRING Chips, Xiaomi 15S Pro, Xiaomi Pad 7 Ultra and Multiple AIoT Products in Beijing Launch Event

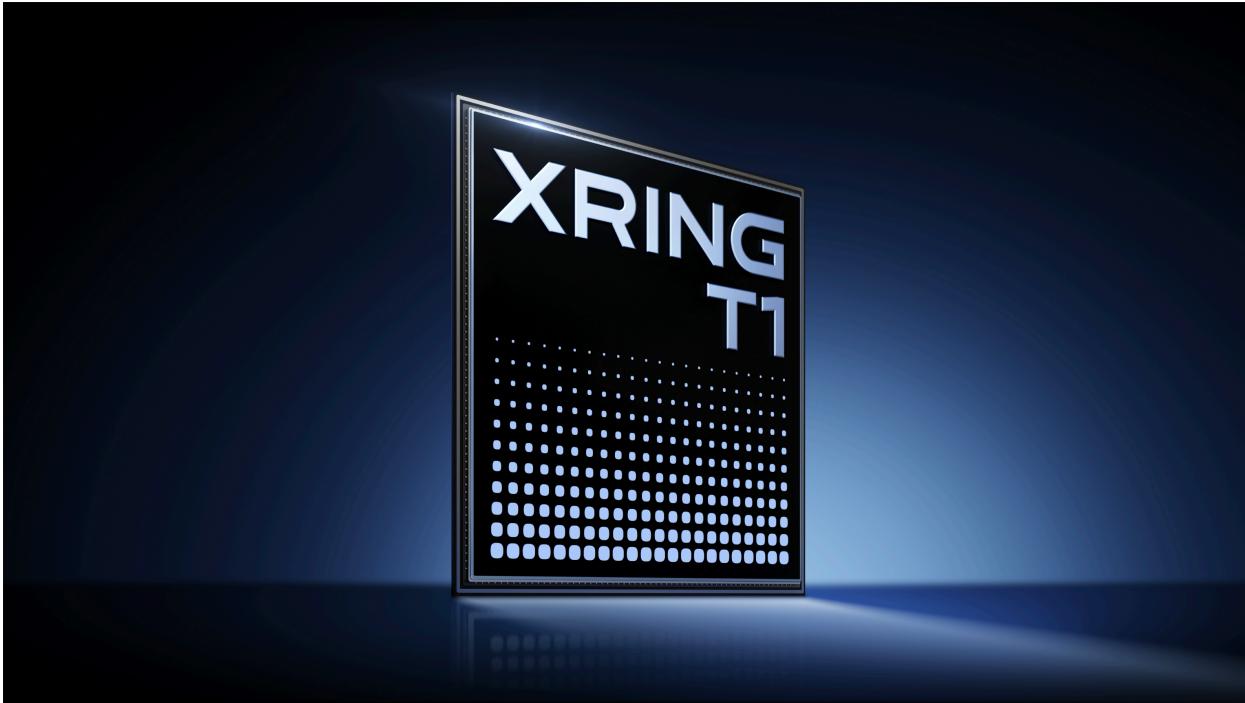

Xiaomi Corporation held a product launch event under the theme “A New Beginning” in Beijing. Xiaomi officially unveiled Xiaomi XRING O1 3nm SoC, Xiaomi XRING T1 4G smartwatch SoC, Xiaomi 15S Pro, Xiaomi Pad 7 Ultra, and multiple AIoT products to its domestic market.

Xiaomi Introduces Xiaomi XRING O1 3nm SoC and Xiaomi XRING T1 4G smartwatch SoC

During the launch, Xiaomi unveiled its first flagship processor, Xiaomi XRING O1 3nm SoC, and Xiaomi XRING T1 4G smartwatch SoC, marking a pivotal moment in its chip development.

Xiaomi XRING O1, built on a cutting-edge second-gen 3 nm process with 19 billion transistors, features a 10-core CPU and 16-core Immortalis-G925 GPU, delivering flagship performance with industry-leading power efficiency. It also integrates Xiaomi’s fourth-gen ISP and a 6-core NPU offering 44 TOPS for advanced AI processing. Launching first in domestic China with Xiaomi 15S Pro and Pad 7 Ultra.

Xiaomi XRING T1 is Xiaomi's first 4G smartwatch chip with a self-developed 4G baseband, marking a key milestone in its chip development journey. It supports eSIM for independent communication and delivers industry-leading battery efficiency. Backed by 7,000+ lab tests and over a year of real-world tuning across 100+ cities, the chip improves 4G performance by 35% over competitors, while reducing power consumption for voice and data. It also enables features like customizable watch faces, remote camera preview, and smartphone-free control of Xiaomi vehicles. Xiaomi XRING T1 will be introduced in the new Xiaomi Watch S4 15th Anniversary Version.

These chips represent more than a technical milestone —they're a statement of Xiaomi's long-term commitment to becoming a leader in core technologies. Backed by 13.5 billion RMB in R&D to date, a planned 50 billion RMB investment over the next decade, and a team of over 2,500 engineers, Xiaomi is committing to deep, sustained innovation in chip development. Chip development is now fully integrated within Xiaomi's core foundational technologies —OS, AI, and chip, aligning hardware, software, and user experience under one vision.

Marking 15 Years of Xiaomi: Xiaomi 15S Pro launched with Xiaomi XRING O1

The newly launched Xiaomi 15S Pro marks a major leap in design, performance, and intelligent functionality. It introduces two striking new finishes: the Xiaomi Composite Fiber Edition, crafted from aramid fiber with a carbon-fiber texture, and a Sky Blue variant with a matte fiberglass back offering a refined, soft metallic sheen. Building on the acclaimed Xiaomi 15 Series design, it retains the symmetrical micro-curved display, aerospace-grade aluminum frame, and a ceramic volcano-shaped camera deco, while adding premium flourishes like a gold-accented CNC power key, an “XRING” nameplate, and exclusive packaging.

At the core of the device is Xiaomi XRING O1 3nm SoC, Xiaomi’s first self-developed flagship SoC built on a 3 nm process, with 19 billion transistors and a 10-core CPU architecture, including dual Cortex-X925 cores at 3.9GHz. It’s paired with a 16-core Immortalis-G925 GPU, achieving 3 million points on AnTuTu benchmarks. Efficiency is boosted further with a new cooling design that boosts heat dissipation by 30%, four dynamic low-power modes, and a dedicated micro-control unit. The device also boasts a 6,100 mAh battery, a Surge G1 battery management chip, and a Surge P3 charging chip. It delivers exceptional longevity even with a 2K 3200-nit LTM display using M9 materials for 18% less power draw.

On the AI front, a 6-core NPU with 44 TOPS powers features like AI writing, semantic search, and notification summaries. Imaging is equally flagship-class, with a Leica Summilux triple-lens system (14mm–120mm), f/1.44 main aperture, fourth-gen ISP with real-time HDR and AI noise reduction, and stunning 4K night video performance. The 15S Pro also supports UWB digital keys, transit cards, motion sickness mitigation during mobile vehicle use, and enhanced navigation —delivering a comprehensive flagship experience engineered for power, intelligence, and elegance.

Xiaomi 15S Pro is available in Xiaomi Composite Fiber and Sky Blue variants, with a starting price of 5499 RMB.

Xiaomi Pad 7 Ultra Debuts with Flagship OLED Display and Breakthrough Performance

Xiaomi Pad 7 Ultra marks the brand's first Ultra-grade flagship tablet, combining premium design, top-tier performance enabled by Xiaomi XRING O1, and advanced AI features.

Xiaomi Pad 7 Ultra features a 14-inch 3.2K OLED display with 1600 nits peak brightness, calibrated for precise color and enhanced with anti-glare and uniform light diffusion layers. Housed in a 5.1 mm ultra-slim metal unibody, it weighs just 609 grams while offering exceptional durability through aerospace-grade structural reinforcement. The tablet is powered by Xiaomi XRING O1 3nm SoC, featuring a 16-core GPU, dual ultra-large CPU cores, and a 6-core NPU —delivering performance that rivals top smartphones while maintaining excellent power efficiency. With 120W HyperCharge, a 12,000 mAh battery, and Wi-Fi 7, it supports fast connectivity and long usage. Tested by Xiaomi Lab, a full charge supports up to 18.95 hours of continuous video playback on Tencent Video. Standby time reaches 61 days, with up to 528 days in ultra-power-saving standby mode.

Xiaomi Pad 7 Ultra enhances productivity with Xiaomi HyperOS 2, optimized for tablets with intelligent multitasking, cross-device integration, and seamless AI-assisted features. It supports professional tools like WPS Office, CAJ viewers, and CAD design software, transforming the device into a portable workstation. The tablet includes a 32MP ultra-wide front camera and a 50MP rear camera. Audio is delivered through an eight-speaker system with 150W peak output for immersive sound.

Additionally, Xiaomi Pad 7 Ultra Keyboard, introduced along Xiaomi Pad 7 Ultra, is crafted from premium magnesium alloy, balancing ultra-thin design with a solid, tactile feel. It offers 0° to 124° angle adjustment via a smooth, precision-tuned hinge. With full-size backlit keys and a laptop-grade typing experience, it pairs seamlessly with an oversized haptic touchpad that supports precise control, multi-touch gestures, and edge rejection —enhancing the tablet's full-screen usability.

Xiaomi Pad 7 Ultra is available in Misty Purple and Classic Black variants, with a starting price of 5699 RMB.

Mijia Fresh Air Conditioner Pro Dual-Outlet Vertical 3HP

Mijia Fresh Air Conditioner Pro Dual-Outlet Vertical 3HP introduces an advanced dual-outlet, four-zone airflow system powered by dual millimeter-wave radar and intelligent algorithms. It detects up to six people in the room and adjusts wind direction in real time with modes like “wind-follows-person” and “wind-avoids-person” for personalized comfort. With 160° wide-angle air delivery and multi-directional zone control, it eliminates the discomfort of direct airflow and adapts to different user preferences throughout the day. For added wellness, it includes Xiaomi’s negative ion purification and a high-grade HEPA filter, achieving over 99% removal efficiency for common pollutants such as PM2.5, bacteria, and viruses. Designed for smart living, Mijia Fresh Air Conditioner Pro Dual-Outlet Vertical 3HP transforms home cooling into a cleaner, quieter, and more intelligent experience.

Mijia Fresh Air Conditioner Pro Dual-Outlet Vertical 3HP is available for 8,999 RMB.

Mijia Air Conditioner Pro SkyFlow 1.5HP

Mijia Air Conditioner Pro SkyFlow 1.5HP builds on the previous model with a groundbreaking radar-based human perception system. Featuring dual millimeter-wave arrays and Xiaomi's AI engine, it actively detects user movement within a 180° range and switches automatically between gentle and directed airflow modes. It combines smart comfort with next-level energy savings, boasting an APF of 5.65 —well above National Grade 1 standards —helping users save over 360 kWh of power annually. In terms of hygiene, it meets China's Mother & Baby certification, integrating HEPA filtration, 56 °C high-temp cleaning, and smart reminders via the Mi Home app for long-term peace of mind. With an elegant silver finish, slim 2 cm install gap, and central AC-inspired design, it blends aesthetic appeal with practical innovation for the modern home.

Mijia Air Conditioner Pro SkyFlow 1.5HP will be available for 3999 RMB.

Mijia Refrigerator Pro Dual-System French Door Built-In 508 L

Mijia Refrigerator Pro Dual-System French Door Built-In 508 L introduces an independent dual-system design for precise temperature control and fresher storage. Separate evaporators for fridge and freezer prevent odor mixing, while an ultra-thin fan ensures no compromise on space. A humidity-controlled drawer keeps produce fresh with ~90% humidity using molecular sieve tech, while an adjustable drawer offers multiple modes for meat, baby food, or 0°C chilling. Active ion and silver-ion sterilization ensure purification of the entire storage space, while the freezer's -30°C deep freeze locks in food freshness. The exterior features a glass panel and built-in hinges, achieving a seamless 600 mm-depth installation with only 4 mm side clearance. Even near a wall, its door opens a full 90° for easy access —combining elegant form with smart, flexible functionality.

Mijia Refrigerator Pro Dual-System French Door Built-In 508L will be available for 4,999 RMB.

Mijia Dual-Drum Washer Dryer Pro 10kg

Mijia Dual-Drum Washer Dryer Pro 10kg upgrades home laundry with cutting-edge Blue Oxygen cleaning tech and dual-zone washing for hygiene-focused households. It allows simultaneous washing and drying with a dedicated small drum for delicates, preventing cross-contamination. With triple smart detergent dispensing, steam sterilization, and dual quick-wash modes, it delivers efficient, customized care for a wide range of garments. The highlight is Xiaomi's electrochemical Blue Oxygen system, which breaks down stains and deep-cleans whites without harsh chemicals —ideal for sensitive skin and long-term fabric care. Smart scheduling, stain-specific modes, and app integration contribute towards a machine designed for convenience, performance, and cleanliness.

Mijia Dual-Drum Washer Dryer Pro 10kg will be available for 5,499 RMB.

Xiaomi TV S Mini LED 2025

Xiaomi TV S Mini LED 2025 brings flagship visual tech into everyday living rooms with a high-brightness Mini LED display, advanced backlight control, and a premium anti-reflective screen. With 1092 local dimming zones (98") and a peak brightness of 1700 nits, it delivers cinematic contrast and detail in any lighting condition. A 144Hz refresh rate ensures fluid viewing for sports and gaming. Color accuracy is enhanced with Xiaomi's in-house picture engine and color management system for vivid, lifelike visuals. The screen features only 1.8% reflectivity —much lower than standard TVs —for superior clarity. Xiaomi HyperOS 2 introduces personalized lock screens and an improved user interface, offering sizes from 55" to 98" to ensure the perfect fit for any home setup.

Xiaomi TV S Mini LED 2025 is available in four sizes: 55", 65", 75", 85", and 98", and will be available from 2,999 RMB, 3,999 RMB, 4,999 RMB, 6,799 RMB, and 9,999 RMB, respectively.

Mijia Smart Dual-tap Water Purifier Pro 1600G

Mijia Smart Dual-tap Water Purifier Pro 1600G combines high-flow efficiency with an intelligent, dual-outlet design to separate purified drinking water from household water. With a 4.71L/min initial flow rate, it fills a standard water glass in under two seconds and supports sustained output up to 25 tons —ideal for large households. The advanced PPC filter removes over 99.5% residual chlorine, while the premium Toray RO filter offers a six-year lifespan. Xiaomi's Zero Stale Water 3.0 ensures fresh water with every use, aided by a six-chamber low-noise pump for quiet operation. Its smart faucet features IPX7 waterproofing and a luxurious electroplated finish. Via the Mi Home app, users can check TDS levels, track filter life, and customize four dispensing modes for a truly connected and premium water experience.

Mijia Smart Dual-tap Water Purifier Pro 1600G will be available for 2,999 RMB.

About Xiaomi Corporation

Xiaomi Corporation was founded in April 2010 and listed on the Main Board of the Hong Kong Stock Exchange on July 9, 2018 (1810.HK). Xiaomi is a consumer electronics and smart manufacturing company with smartphones and smart hardware connected by an IoT platform at its core.

Embracing our vision of “Make friends with users and be the coolest company in the users’hearts”, Xiaomi continuously pursues innovations, high-quality user experience and operational efficiency. The company relentlessly builds amazing products with honest prices to let everyone in the world enjoy a better life through innovative technology.

Xiaomi is one of the world’s leading smartphone companies. In December 2024, the MAU reached approximately 702.3 million (including smartphones and tablets) globally. The company has also established the world’s leading consumer AIoT (AI+IoT) platform, reached approximately 904.6 million smart devices connected to its platform (excluding smartphones, laptops and tablets) as of December 31, 2024. In October 2023, Xiaomi upgraded its strategy to “Human × Car × Home”smart ecosystem, seamlessly merges personal devices, smart home products, and cars. Xiaomi always centers on humanity and is committed to providing comprehensive, better connected experiences. Xiaomi products are present in more than 100 countries and regions around the world. In August 2024, Xiaomi was included in the Fortune Global 500 list for the sixth year in a row.
